

How the best get better

1 Mindsets

What has got you here, won't get you there
You don't have to be ill to get better

2 Thinking Biases

Turkey Thinking: Past results don't predict the future
Unconventional thinking: More comforting data means you're closer to the edge
From: What & why we want to achieve
To: Building a high performance organization ready for anything

3 Valley of Death

Valley of Death: Energy versus Time
Focus: Hannibal Mind, Owner versus Victim
Ownership: Clarity, Strategic Quitting, Avoid kryptonite behaviors, Execution system

4 Clarity

Culumbus Syndrome
Vision versus Connection: Stuck, Ivory Tower, Kumbaya
High Performance: Consistent, Big Goals, Lazy
30 seconds exercise: Alignment, Distinction (Goals: Best, Anti goals: Good)

Additional information

Ted Talk: Strategic Quitting
Power of Preeminence
How successful engineers become great business leaders

7 Execution Systems

Will it make the boat go faster
Eat your frog
Habits

6 Kryptonite Behavior

Yes, but
Listening to reply
Adding too much Value
Negativity
Excuses
Winner's Obsession
Being right vs being effective

5 Strategic Quitting

Highest and best use of time: Skill, Passion, Value creation
Strategic Quitting: Eliminate, Outsource (Third party, System), Delegate (Give work to someone for whom it is play)
